Physical Therapy

## CONTENTS

Jul-Aug 2019, Volume 23, Number 4

<b>Editorial</b>	Showing confidence (intervals) . . . . .	<b>277</b>
	S.J. Kamper	
<b>Systematic Review</b>	Can high-intensity interval training change cardiac autonomic control? A systematic review . . . . .	<b>279</b>
	R.M.d. Abreu, P. Rehder-Santos, R.P. Simões, and A.M. Catai	
<b>Masterclass</b>	Understanding and interpreting confidence and credible intervals around effect estimates . . . . .	<b>290</b>
	L. Hespanhol, C.S. Vallio, L.M. Costa, and B.T. Saragiotto	
<b>Original Research</b>	Use of 95% confidence intervals in the reporting of between-group differences in randomized controlled trials: analysis of a representative sample of 200 physical therapy trials. . . . .	<b>302</b>
	A.P.C.F. Freire, M.R. Elkins, E.M.C. Ramos, and A.M. Moseley	
	Prevalence of dyspnea after stroke: a telephone-based survey . . . . .	<b>311</b>
	K.K.P. Menezes, L.R. Nascimento, M.T.M. Alvarenga, P.R. Avelino, and L.F. Teixeira-Salmela	
	Role of physical therapists in the weaning and extubation procedures of pediatric and neonatal intensive care units: a survey . . . . .	<b>317</b>
	S.L.L.d.S. Bacci, J.M. Pereira, A.C.d.S. Chagas, L.R. Carvalho, and V.M.G.d.O. Azevedo	
	Trunk asymmetry is associated with dominance preference: results from a cross-sectional study of 1029 children . . . . .	<b>324</b>
	C. Arienti, R. Buraschi, S. Donzelli, F. Zaina, J. Pollet, and S. Negrini	
	Knee crepitus is not associated with the occurrence of total knee replacement in knee osteoarthritis – a longitudinal study with data from the Osteoarthritis Initiative. . . . .	<b>329</b>
	M.F. Pazzinatto, D. de Oliveira Silva, F.M.d. Azevedo, and E. Pappas	
	Interprofessional education for health science students’ attitudes and readiness to work interprofessionally: a prospective cohort study. . . . .	<b>337</b>
	Y.J. Kim, J.C. Radloff, C.K. Stokes, and C.R. Lysaght	
	Is forward head posture relevant to cervical muscles performance and neck pain? A case–control study. . . . .	<b>346</b>
	L. Ghamkhar, and A.H. Kahlaee	
<b>Clinical Trial Protocol</b>	Dry needling in addition to standard physical therapy treatment for sub-acromial pain syndrome: a randomized controlled trial protocol . . . . .	<b>355</b>
	B.R. Hando, D.I. Rhon, J.A. Cleland, and S.J. Snodgrass
